Office of Information,
Division of PhotographyJuly 1, 1955
(Preliminary)0
USDA PHOTOGRAPHS

The Guide index below is a listing of photographs available in the Division of Photography, Office of Information, USDA. Photographs of all USDA Agency work are being integrated into one central library. When completed, the Library will consist of approximately 100,000 photographs and negatives of news and general interest. Additional map and chart negatives issued by the various agencies of the department are also on file but are not included in this listing.

Many more Agency photographs must be integrated into the library before this list is completed. Therefore, this listing of photographs will be revised from time to time.

Requests for photographs should be directed to the Office of Information, USDA, Washington, D. C. The current prices for glossy prints are as follows: 4 x 5 - 35 cents, 5 x 7 - 45 cents, 8 x 10 - 60 cents, 11 x 14 - \$1.25, larger sizes \$1.15 per sq. ft.

State Extension Workers should direct their request to the Division of Information Programs, Federal Extension Service, USDA, Washington, D. C.

State Experiment Station Editors should direct their request to State Experiment Stations Division, ARS, USDA, Washington, D. C.

Please send any suggestions for other pictures or comments to the Office of Information, USDA, Washington, D. C.
